

## CONNECTS: PLUG.OUT 000A

### INTERCONNECTION AC

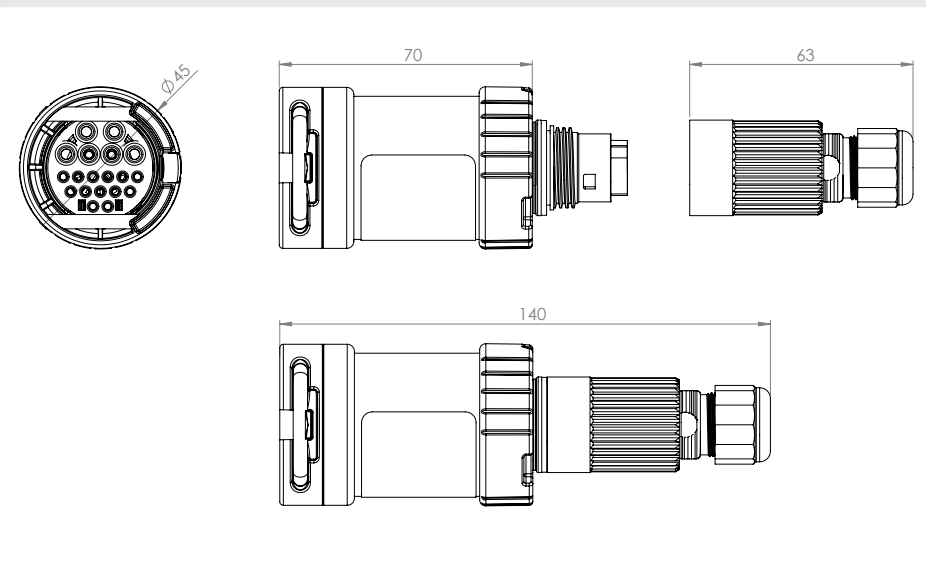

- With this PLUG.OUT it is possible to interrupt the light line and connect through a cable.
- This is commonly used for passing obstacles or making turns within a light line.
- With this minimalist version, only the AC power supply connection is provided so dimming is not possible.

## Features

article no: LUM-DL01AC-PGOU-000A

|                |                 |
